

Git Basics Live Training

Hello!

Daniel Chen

- ▶ PhD Student at Virginia Tech
 - ▶ Data Science literacy for medical practitioners
- ▶ R, Python, Git Training
 - ▶ “Pandas for Everyone”
 - ▶ Python/Pandas live trainings
- ▶ Software Carpentry Instructor
- ▶ RStudio Intern
 - ▶ `gradethis`: code grader for `learnr` interactive documents

Git Basics

1. Basic setup
2. Create a repository
3. Track changes
4. Explore history
5. Reverting changes
6. Ignore files
7. Remotes
8. Conflicts

Setup

<https://carpentries.github.io/workshop-template/#git>

Materials

- ▶ Software Carpentry
 - ▶ <https://swcarpentry.github.io/git-novice/>
- ▶ Reference guide
 - ▶ <https://swcarpentry.github.io/git-novice/reference.html>

Poll – Have you used version control before?

- ▶ Git
- ▶ SVN/CVS
- ▶ Naming files
- ▶ Track changes
